## AYRES

1609

### XII.

First Part

**Sing wee then heroyque grace,**  
So with louely light adorning,  
That faire heauen of his face,  
As the Starre that leads the morning,  
Body braue for part and whole,  
Purest seate of purer soule,  
Where reposed lodge by nature,  
Princely strength and comely stature.
